Playful

Plumetastic® Pink Muhly Grass

Easy, breezy, and with glittering plumes that have the appearance of spun sugar, this pink grass is a showstopper that, like Mom, draws everyone in with its twinkle and shine. We love this massed for an unforgettable early fall show.

CARE: Adaptable and easy to grow; thrives in average to lean, well-drained soils. Water deeply and regularly during the first growing season to establish an extensive root system; reduce frequency once established. For a neat appearance, hard-prune old foliage annually before new leaves emerge. Pruning time: late winter or early spring.

You make everyone who knows you feel welcome and appreciated. I've never told you what an amazing gift that is.

THANK YOU FOR ALL THAT YOU DO.
