SunBelievable™ Brown Eyed Girl Helianthus

Alive, vibrant, happy, and sunny (so very "Mom"!), this annual sunflower is always "on," bringing smiles and joy to the garden and, as a cut flower, to the kitchen too!

CARE: Provide organically rich, well-drained, quality garden soil. Site in a sunny location once the threat of spring frost has passed. Prefers regular water, but once established will quickly revive from moderate dry spells. Promptly remove spent blooms to encourage more prolific flowering and a longer bloom period. Hardy to 40°F.

THANKS, MOM,
FOR ALWAYS CHEERING ME UP
